ART EXHIBITION

Radio arts: Audio, sound, technics, photo, painting, poetry.

Lost & Found - Museum of Im/migration

Socio-cultural diversity is a reality of today, and plurality is integral to the socio-political concept of a consciously lived diversity: To some extent, plurality in India has already become a political reality; in Africa it is a political challenge in the decades to come whereas in Europe it is still a political vision. - **oumar mbengue** <http://www.oumarmbengue.com/>

Motion - audiovisual Performance & Action painting.

Motion is a format which combines dance, painting and music within one audiovisual experience. It transcends questions of cultural identity and its expression in the combined art forms. One Track, one shot, one painting. That's the idea behind the collaborative artistic format of Hamburg based painter **Armah**.

Newsgroup Afghanistan - a media collective of young Afghan refugees in Berlin

In their #BLEIBISTAN exhibition, Newsgroup's young media makers address the issue of asylum hearings - and rejections - of young Afghan men here in Germany by challenging the power and narrative authority of BAMF's (Germany's federal office for migration and refugees) bureaucratic and dehumanizing language through photography and collage. **Katja Heinemann**

X-Border_How To Step Across Borders - The film is focusing on the borders, which are present in the lives of the young refugees, and how these borders can be overcome. The project seeks to empower young refugees by sharing an open safe-space for experimental artistic expression and collective media production. **by artist Louise Vind Nielsen**
